MESSAGE FROM THE CEO

ELSAFEER Co., Ltd. was established with the mission of building a bridge that connects Japan and the world.

I was born and raised in Egypt, and while living and working in Japan, I developed a deep desire to deliver high-quality and reliable Japanese products to the world.

Today, we leverage our network across Egypt, Tanzania, other African countries, and the Middle East, to export a wide range of products overseas, including used cars, engines, auto parts, motorcycles, land, oil stoves, and more.

We value every single business relationship and aim to build long-term partnerships with our customers and business partners. By connecting Japanese companies with global markets, we are committed to creating new value through honest and reliable business activities and contributing to the development of the international community.

We will continue to build bridges of trust, delivering the quality and reliability of Japan to the world and connecting the world to a brighter future.
